## *Far From Fearless: A Collection of Essays*

“Whenever the fear spikes in my chest, and I think to myself, man, this is risky—you might break your heart, break a bone, end your career...Well, I guess we’re doing it then, aren’t we? *Yes. Yes we are.*”

Beautifully illustrated and deriving inspiration from nature, *Far From Fearless* explores the pitfalls, perils, and joys of creativity. Whether struggling with beginnings, self-doubt, unexpected setbacks, or finding the courage to embrace possibilities, each essay delves into the creative process with heartfelt honesty, humor, and encouragement.

*Rebecca K. O'Connor* is the author of *We Were Wilder*, *Lift*, *Falcon's Return*, and reference books on the natural world. She works for a conservation organization in her hometown.
